

## Example of Engine Comparisons

Rotapower® Engine	Competing Engine
	
<p>Engine Displacement: 27cc (54cc equivalent)                      Engine Weight: 4 lbs                      Engine Volume: 0.15 ft<sup>3</sup>                      Engine Power: 2.5 hp</p>	<p>Engine Displacement: 100cc                      Engine Weight: 28 lbs                      Engine Volume: 1.5 ft<sup>3</sup>                      Engine Power: 2.8 hp</p>
	
<p>Engine Displacement: 150cc (300cc equivalent)                      Engine Weight: 18 lbs                      Engine Volume: 0.25 ft<sup>3</sup>                      Engine Power: 18.5 hp</p>	<p>Engine Displacement: 597cc                      Engine Weight: 79 lbs                      Engine Volume: 3 ft<sup>3</sup>                      Engine Power: 16 hp</p>

## Freedom Motors Generator Comparison

Rotapac™ Generator	Gillette Gen-Pro® Generator
	
<p>Weight: 80 lbs                      Volume: 3.25 ft<sup>3</sup>                      Power: 15 kw</p>	<p>Weight: 385 lbs                      Volume: 16 ft<sup>3</sup>                      Power: 13.8 kw</p>
